The Reservoir
On the
Round Oak
Chief
Is Best
By Test

The Round Oak Folks have a patent on the Round Oak Contact Plate, also on the method of attaching the reservoir to that Plate. By the contact plate we mean the plate to which the Copper Reservoir is fastened. This plate, in shape, is like the Crystal of your watch. Over this bulging plate the copper is drawn and bolted, "skin tight."

This takes out and keeps out the buckle natural to the flexible copper reservoir. With the Round Oak Chief the heat is transmitted directly into the water, so no matter if only two inches, or if the reservoir is filled, the water heats uniformly, and you can bake at the same time.

You must see it to really appreciate its superiority. There are six more reasons why the Chief should determine your choice.

Golden Wedding

An event of more than usual interest and pleasure took place at the home of Mr. and Mrs. C. C. Switzer, Lacombe, Tuesday Evening October 1st 1918 the occasion being the Fiftieth anniversary of the marriage of this well known couple.

The home was beautifully decorated. In the dining room long golden streamers projected from a large bell in the centre of the ceiling. The table was artistically decorated with flowers. Their two grand daughters, Misses Effie Story and Rhea Switzer attended the table.

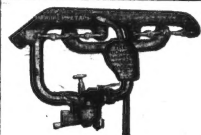

A brief address was read and a presentation of a beautiful pendant to their mother and a gold headed gibbon came to their father was made by the family. Mr. and Mrs. Switzer were the recipients of many personal gifts from friends—all testifying to the high esteem in which they are held.

Mr. and Mrs. Switzer were married at Osborne Township Huron County, Ont., on Oct. 1st 1868. There they resided thirty years and in March 1898 they came west and settled on a farm about four miles south east of Lacombe. This they developed into one of the finest farms in the Lacombe District—the farm now owned by Mr. Taylor.

About fourteen years ago Mr. Switzer retired and has since lived in town. He was a member of the Lacombe Council for 4 years and has been Justice of the Peace for several years. All his public services were characterized by sincerity, care and thoughtfulness. All the members of the family excepting one were present at this reunion. Norman L. Switzer, a

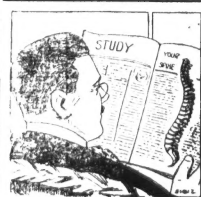

prosperous farmer of Stettler, Alberta. Mrs. Charles G. Manness, of Toronto. Mrs. Geo. H. Storey of Lacombe and Milton C. Switzer, Druggist of Drumheller, Alberta. The second son, Alfred E. resides at Charlesville, Queensland Australia, and was unable to be present.

The celebration of their golden wedding is no indication of the activity of this couple and their many friends trust that they may be spared years of continued activity and happiness.

Parsons Wins Title in Fistic Battle

"Cyclone" Higgins earns his name by being a whirlwind in a fight. He is a traveling person who is willing to battle for his principles with his fists as well as his brain. It takes him a long time to get into action, but when he does—there is excitement, and Cyclone never quits until he has swept all before him. This fighting person is played by the popular Francis X. Bushman, who with Beverly Bayne, stars in "Cyclone Higgins D. D." a Metro All-Star attraction at the Rex Theatre on Saturday evening.

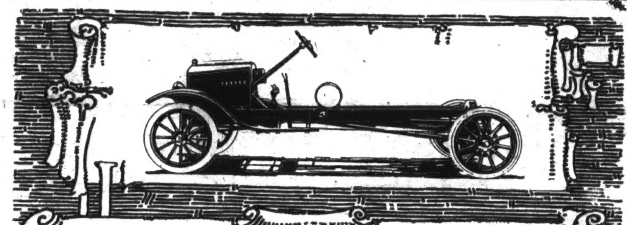

"The Strong Way"

"The Strong Way," the new est World-Picture Brady Made, will be shown on Thursday at the Rex theatre. Beautiful June Elvinder is the star of this production, long seen in the role of Eriq Torrence, a part of great power. The story is laid in New York City where various interesting phases of the remarkable present-day life in the metropolis are shown. The outdoor scenes in this picture are notably beautiful and the whole production is a high-class attraction of real entertainment power.

Brings the Elevator Nearer
the Grower's Grain

ON the prairie the miles that separate the grain from the elevator or loading centre often means a loss to the farmer. The Ford One-Ton Truck fitted with a dump body fulfills the grain grower's every requirement. The truck may be loaded direct from the threshing—it eliminates expensive and unnecessary handling.

The dump body is only one of the many styles doing efficient work for the Canadian grain grower, farmer, producer and distributor. For example, in many districts a suitable body has been attached to the Ford Truck Chassis and is being used for transporting children to and from consolidated schools.

The Strain of Overwork

Your work is heavy, and sore, tired muscles are common occurrences. Each time your back aches you blame it on your work, and just there the danger lies—for that pain, the back may not be from strain, as you suppose, but the forerunner of Kidney or Bladder trouble.

For your own interest, it is best to be particular and sure, as Kidney troubles inevitably pull you down and destroy your earning power.

Take note of these symptoms. Do you get dizzy and have repeated headaches, painful urination, brick dust deposits, or feel drowsy and, generally, good for nothing? If so, it is your kidneys that are bothering you—not work—and Gin Pills are necessary.

No person can work properly when they feel sick, tired and dizzy all the time. The more they try, the more energy they use up; and this only tends to aggravate their condition, as the kidneys are already tired out with their endeavors to relieve their congested state and perform their function properly.

The kidneys are delicate vital organs; once they become affected through any cause—you suffer until the congestion is relieved and the cause removed.

Don't let your system become run down. A box or two of Gin Pills will relieve those kidney complaints and restore your old-time health and strength.

Your health is priceless. Don't risk losing it. Keep your kidneys in order always by taking Gin Pills.

Sold everywhere for 50c a box. Write for free literature to The National Drug & Chemical Co., of Canada, Limited, Toronto, Ont.

Mortgage Sale of Farm Property

Pursuant to the directions of the Registrar and by Virtue of the Powers of Sale provided by the Land Titles Act, under a certain mortgage which will be produced at the time of the sale.

There will be offered for sale by public auction by Clarence F. Dameron, at the Post Office in the Town of Lacombe in the Province of Alberta, on Saturday the 19th day of October 1918, at the hour of two o'clock in the afternoon, the following property namely:

The north East quarter of Section 1, Township 40, Range 26, West of the 4th Meridian, in the Province of Alberta, Containing by admeasurement, One Hundred and Sixty (160) acres more or less.

Terms of sale to be 15 per cent. at the time of the sale and the balance according to the terms and conditions to be made known at the time of the sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances save and except the reservations, exceptions and conditions in the original grant from the crown and in the existing Certificate of Titles, and taxes for the current year.

The vendor is informed that the above property is situated about ten (10) miles from the Town of Lacombe, nearest post office, and that the soil is black loam with clay sub-soil. The land is slightly rolling and contains no marketable timber, but about ten acres sough. There are no improvements whatever, but good water may be obtained at a depth of thirty feet. The property is two miles from a school and three miles from a railway station. Our hundred and fifty acres can be cultivated.

For further particulars and conditions of sale, apply to Messrs. Parlee, Freeman, Mackay & Howson, Vendor's Solicitors, at the City of Edmonton in the Province of Alberta this 4th day of September A. D. 1918.

A Great Opportunity

Since the announcement that the Entente allies and the United States had definitely decided to send a military expedition to Siberia to assist the Czecho-Slovaks and other loyal and independent factions in their struggle against the Bolsheviks and the Germans, the minds of more than half the world have been focussed on the northern Asia, watching the brave fight which the opponents of Prussianism have been waging and hoping that they will be able to hold their own until help arrives.

Already the Japanese have landed a formidable force and more and more are following as rapidly as they can be mobilized. It will probably be some months before the British, French, Italians and other units are ready to take the field, but already tremendous interest is being taken in the preparations that are going forward. Nowhere is that interest more intense than in Canada, especially since it has become known that the Dominion is to share in the expedition and that soldiers of this country will be sent across the Pacific to fight for the first time on the great continent of Asia.

It is no more than natural that Canada should be deeply interested in Siberia. Asiatic Russia is last great undeveloped land lying in the temperate zone. Its climate and physical characteristics are in many respects very similar to those of our own country. It has vast forests and rivers, great areas of rich virgin soil waiting for the plough, valuable mineral deposits which have as yet only been scratched on their surface, and untold wealth in furs. All these natural resources are those with the developments of which Canadians are most familiar.

The fact, therefore, that several thousand Canadians are to be sent to Siberia on a military expedition should prove the entering wedge of what will eventually be a most valuable connection for this country. The officers and men who will comprise the Canadian Siberian expeditionary force are not professional soldiers. They are business men, manufacturers, travelling salesmen, farmers, lumbermen—in fact they are average Canadians, most of whom will find there some interest akin to that in which they were engaged in the days before the war, and who will to use a Biblical expression, spy out this great northern land in their own behalf and in that of their fellowcountrymen who remain at home.

There is a great future for Canada in this Siberian expedition. Geographically we are much closer to northeastern Asia than is any European country but Russia. For centuries Siberia has been practically closed to the world as a result of the settled policy of generation after generation of Russian autocrats. When stable government is at length achieved—as it undoubtedly will be as soon as peace comes, if not sooner—a situation will arise there which existed when the Canadian west was first colonized. There will be railways to be built, hydro-electric power to be developed, millions of acres of virgin soil to be broken up and cultivated, forests to be felled and sawed into lumber, coal, iron and precious metal deposits to be mined, and a thousand and one other natural resources and trade resources to be exploited.

In all this development Canadians can and should have their share. Our government, it is hoped, is alive to the unlimited possibilities, which exist, and will bend every effort to obtain information that will be of use to the army of trade and commerce of which the Canadian Siberian expeditionary force will really be the advance guard, and to guide and direct the energies of those who will bear the brunt of the pioneer work in what will be the last great feat of colonization the world will ever see.

Acknowledgments to Labe Films

TO every home there comes a time when every thought, every hope, every prayer for the future centres on the recovery of one loved one. In that hour of anguish, every means to recovery is sought—the highest medical skill, trained nurses, costly treatment. Does the price matter?

It may be so great as to stagger the imagination—a sum beyond the possible.

But does anyone ask, "Can we do it?"

Money or no money, they do it. And somehow they pay.

It may mean doing without things they think they need. It may mean privations, sacrifices, hardships. They make unbelievable savings, they achieve the impossible, but they get the money to pay.

To-day in this critical period of our nationhood, there is imperative need for MONEY—vast sums of money.

Only one way now remains to obtain it.

The nation must save, every community, every family, every individual Canadian must save.

If anyone says "I cannot save" let him consider to what extent he would pinch himself to relieve the sufferings of a loved one at home; and surely he would not pinch less for our fighting brothers in France.

Without suffering actual privations, nearly every family in Canada can reduce its standard of living, can practice reasonable thrift, can make cheerful sacrifice to enrich the life-blood of the nation.

You who read this, get out pencil and paper NOW. Set down the items of your living expense. Surely you will find some items there you can do without.

Determine to do without them.

Start TO-DAY. Save your money so that you may be in a position to lend it to your country in its time of need.

If it's BRAID'S it's the BEST TEA and the best COFFEE "MORNING - NOON - NIGHT"

The Central Red Cross will meet with Mrs. T. F. Roberts on Thursday, Oct. 10 at the usual hour.

Undaunted by the fire in which they lost over five thousand dollars, The Lacombe Cafe Company will re-open immediately in Lacombe, and have secured the McLean Block on Nanton St., next door to the Western Globe office. It will be fixed up regardless of expense, and work is now progressing to this end.

Remember Albert Steers auction sale of household furniture on Saturday next, October 5th, at his residence on block north of F. E. McLeod's Store. A lot of good house furnishings, also a 3 h.p. gasoline engine, and galvanized water tank. No reserve.

A Tobacco Shower For Our Boys A tobacco shower will be held in town Saturday, October 12th for the purpose of sending every Lacombe boy Overseas a parcel of tobacco and cigarettes in his Christmas box from the St. John's Working Committee.

Special Rally Day service is being held on Sunday at Lakeside at 1:30 p.m., the preacher being Rev. John G. Rogers, of Clive.

Miss Jessie McDonald left on Monday to attend the University in Edmonton, having been granted one year's leave of absence from the staff of the Lacombe School.

Don't forget the Patriotic Dance to be given by Lacombe Girls Club at Veteran Theatre, on Friday, October 4. Ladies 50c. Gentlemen \$1.00. Tickets on sale at various banks.

Chimneys, Flues, Pipes and Eave-troughs, cleaned. Chimney Sweep, M. H. Rork, will be in Lacombe on Wednesday.

The St. John's Working Committee will meet at Mrs. Chapman on Tuesday evening the 8th at eight o'clock.

E. C. Chapman, manager of the Royal Bank, here, has been asked to act as representative of the Salvation army in this district, and is making an appeal for funds for this worthy institution. You will doubtless get a circular from him in a day or two, which it is trusted will have fullest consideration.

The Red Cross Sewers will meet at the home of Mrs. McFetridge on Friday afternoon, and the knitters with Mrs. Jas. Findlayson.

The McDonald Drug Co. Ltd. have purchased the business of Mr. Creighton and will continue in the store occupied by Mr. Creighton. They will be pleased to meet their customers in the new location.

The dance in the Veteran Theatre on Friday evening promises to be a most enjoyable one. The ladies report brisk sale of tickets. If you have not got your ticket yet, get it today.

The local Banks report that the recent appeal to all residents of Lacombe and district regarding the salvation army Red Shield Fund campaign has been productive of a very good response. Generosity towards this worthy cause is showing up well. Those that have not already sent in their donations but are willing to do their bit without direct solicitation will confer a favor by giving this duty their attention at as early date as possible.

All American Citizens who on Sept. 12 were between the ages of eighteen to twenty inclusive and between thirty one and forty-five inclusive may register on or before Oct. 12 under the United States Selective Service Act. LACOMBE, ALBERTA

Day Block Burned to the Ground

On Friday last the Day Block, Lacombe's handsomest business block, was totally destroyed by fire.

Fire was discovered about seven o'clock at the corner occupied by the Lacombe Cafe, and the alarm immediately sent in. The fire brigade responded promptly, but the fire had gained such headway before being discovered that it was seen that any attempt to save the building was useless, and all efforts were made to prevent the flames from spreading to A. Urquhart and Co's departmental store. In this the brigade was successful, although at times the roof caught fire, and it was only by strenuous work that further damage was prevented. The origin of the fire is not known, but it is the opinion of the firemen that it had been smouldering a long while before it was discovered.

The building was occupied by the Lacombe Cafe, a new institution, and had been in operation about a month. The loss to this concern is heavy, as the proprietors had just completed installing a complete set of fixtures, and carried a large stock of fruits and confectionery. No insurance was carried by this firm.

Next to the Cafe was the office of John McKenty, and with the exception of a few papers, he lost the entire contents of his office. He has taken temporary quarters with D. Cameron, next to the post office, but intends opening his office in the building next to Trimble and Garland's office on Allen Street.

The McDermid Drug Co. are probably the heaviest losers among the tenants. Their magnificent stock of drugs and sundries was completely destroyed, nothing whatever being saved. This firm, we understand, have purchased the drug business of Mr. A. Creighton, and took possession on Tuesday.

The upstairs of the building was occupied by several tenants, Mr. and Mrs. Paddison, Mrs. Kent, and others losing nearly all their household goods and clothing. Dr. Hynes, who had his offices there, lost his X-Ray machine, all his library and instruments, and his loss will run into the thousands.

A. Urquhart & Co. will have a very heavy water and smoke damage.

H. A. Day, owner of the building, makes a very heavy loss, and has the sympathy of all his friends. This is the second time the house has been destroyed within the past few years. He is undecided whether he will rebuild or not, but at all events he will not attempt it so late in the year. There was in the neighborhood of \$14,000 insurance on the building, which is valued about \$40,000.

The fire brigade is to be complimented on its work, and those responsible deserve praise for the able manner in which the engine was handled, the force being the best obtained in Lacombe. The new engine demonstrated its worth at Friday's fire, and after this time the citizens will rest a little easier.

When it was thought the fire would spread to the Urquhart building, a request was sent to the Red Deer fire department to send what aid they could, and the request was generously responded to. Within an hour from the time the request was made the Red Deer men were here with their hose wagons, all ready to get busy. Fortunately their assistance was not required.

FIRE FIRE FIRE

A. Urquhart & Co. having had a considerable quantity of Dry Goods and Gents' Furnishings damaged by water and smoke, during the recent fire in adjoining building, will at an early date offer all damaged goods at Big Reductions.

These Damaged Goods will be thrown on Bargain Counters as soon as they can be sorted out.

Chiropractic

The Leading Drugless Health Science

that goes directly to the cause of the majority of so-called disease is the reason of Chiropractic efficiency as a drugless health agent that is why adjustments benefit you when all "treatment methods" have failed. Disease is a medical term. It is a misnomer. All so-called "disease" is but bodily incoordination. The "diseases" here named are called to educate the reader by contrast to proper terminology.

Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.

A slight subluxation of the vertebrae in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from the nose, disorder of gums, catarrh, etc.

The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pains between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers cramp, etc.

A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing and other lung troubles, etc.

Stomach and liver trouble, enlargement of the spleen, pleurisy, and a score of other troubles so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.

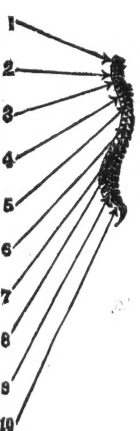

Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, etc.

Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases so-called, are caused by nerves being pinched in the spinal openings at this point.

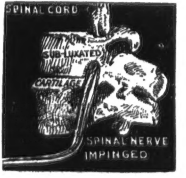

Regulations of such troubles as so-called appendicitis, peritonitis, lunago, etc., follows Chiropractic adjustments at this point.

Why have so called constipation, rectal troubles, sciatica, etc. when Chiropractic adjustments at this point of the spine will remove the cause.

A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of the pelvis and lower extremities.

SPINAL CORD

SPINAL NERVE IMPINGED

The Chiropractors assume that in consequence of mal-positioned vertebral segments, the openings between the vertebrae through which the spinal nerves pass are affected, that in this way the nerves are impinged, and that such compression is the cause of the majority of all diseases. This condition is called "Subluxation" of the vertebral unit, which means that the articular surfaces of these bony units are more or less out of alignment. To re-align these bones the Chiropractor uses nothing but the bare hands to deliver a particular thrust, thus releasing the pressure of harder substances from the nerve trunks to restore normal nerve function.
